

## Instructions - The Taboo Leather Chinese Cock Torture Cage

- 1 Loosen the weave and insert cock while soft.
- 2 Snap on the three extensions onto the buckle strap.
- 3 Position the center extension strap between the two balls. The buckle will be on top of the cock shaft. Position each of the other extension straps to either side of each ball while pulling each ball through each open area. At this point, you will have an extension strap to the left of the left ball, one extension strap between the balls, and the last one to the right of the right ball.
- 4 Wrap the buckle strap around the cock and balls and buckle it tightly.
5. Evenly arrange the weave, attach a leash or attachment point and have fun!

### SAFETY TIPS

As with any other restraint, always check for color and warmth to be sure there is adequate circulation. Use more care with the vampire spiked version of this device - the spikes are designed to add sensation without breaking the skin, but this is always a possibility with rough play.

Your use of this device constitutes your agreement to release Taboo Leather, it's owner, vendors and customers from any and all liability relating to its use.
